IEEE

IEEE-SJCE STUDENT BRANCH (STB14391)
Sri Jayachamarajendra College of Engineering (JSS STU), Mysuru
Affiliated to IEEE Bangalore Section & IEEE Mysuru Subsection

Official Events & Featured Societies Catalog

Complete Reference Guide: Chronological Events Timeline & Society Featured Initiatives

DOCUMENT SCOPE & EDITION

- Section 1: Complete Chronological Timeline of 38 Branch Events (2023–2026 Editions)
- Section 2: Society-Specific Featured Events across all 7 Technical Chapters & Affinity Groups
- Source: IEEE-SJCE Official Production Portal & Annual Reports (2024–2026 Archive)
- Generated: November 2026 | Status: Officially Verified Production Release

TABLE OF CONTENTS

SECTION 1 — **Events Timeline (Events Page)**
38 Chronological Events (Snap Circuits, MATLAB Workshop, Robotics, Space Tech Talk, SQL Bootcamp, etc.)

SECTION 2.1 — **IEEE-SJCE Student Branch (Main)**
9 Featured Events (Orientation, Techtour, Fun-Finity, Radioverse, Tech Detective, Circuitrix, Electroclues, etc.)

SECTION 2.2 — **Electron Devices Society (EDS)**
6 Featured Events (Snap Circuits, Soldering & Etching, Cadence, Robotics, SpiceLab, Quiz Quake)

SECTION 2.3 — **Women in Engineering (WIE)**
8 Featured Events (Kalpana Chawla, TCL, Prayas, STRONG AI Ideathon, SQL Bootcamp, SpiceLab, etc.)

SECTION 2.4 — **Robotics & Automation Society (RAS)**
9 Featured Events (IoT Series, Techkshetra, Robotics Workshop, Space Tech Talk, Motion Planning, etc.)

SECTION 2.5 — **Signal Processing Society (SPS)**
7 Featured Events (THE WAVE, SPS Launch Keynote, ML Workshop, Wave Lab, Motion Planning, MATLAB)

SECTION 2.6 — **Aerospace & Electronic Systems (AESS)**
2 Featured Events (AESS Chapter Inauguration & Space Tech Talk, Multi-Society MATLAB Workshop)

SECTION 2.7 — **Computer Society (CS)**
1 Featured Event (IEEE Computer Society Chapter Inauguration & Computing Foundations)

SECTION 1: EVENTS PAGE TIMELINE

Complete Catalog of all 38 Events Displayed in Reverse Chronological Order on the Events Page

01 Snap Circuits

5–6 NOV 2026
[EDS]

The Electron Devices Society conducted Snap Circuits, giving freshers a hands-on experience with electronic components, circuit prototyping, and basic hardware debugging.

02 MATLAB Workshop

4–5 NOV 2026
[SPS · RAS · AESS]

A joint initiative organized collaboratively by SPS, RAS, and AESS in association with the ECE Department. An intensive two-day hands-on workshop covering computational mathematics, matrix manipulation, algorithm development, and practical signal processing and control systems workflows.

03 Tech Detective

16 OCT 2026
[IEEE DAY]

Celebrated as part of IEEE Day, an exhilarating technical deduction contest challenging participants to crack cryptic hardware puzzles, decipher signals, and solve engineering mysteries.

04 Radioverse

8–9 OCT 2026
[IEEE-SJCE]

A two-day immersive exploration into radio frequency engineering, wireless telemetry, antenna design, and radar applications with live demonstrations and simulation sessions.

05 Orientation Day

26 SEP 2026
[IEEE-SJCE]

The premier induction welcoming new engineering students to IEEE-SJCE. Freshers explored our societies, interacted with seniors and Execom members, and discovered the technical, leadership, and professional opportunities ahead.

06 FUNsane

25 SEP 2026
[IEEE-SJCE]

An unforgettable evening dedicated to breaking away from routine, unwinding, and celebrating community spirit. Students immersed themselves in energetic team challenges, interactive games, lively music, and memorable moments filled with laughter and camaraderie.

07 AESS Chapter Inauguration & Space Tech Talk

23 JUL 2026
[AESS]

Formal inauguration of the IEEE AESS student chapter featuring chief guest Dr. Braham Himed (President, IEEE AESS) and Sri Puneeth Kumar Mishra (ISRO), accompanied by an insightful technical session on radar systems and satellite technology.

08 THE WAVE: Speech as a Window to the Brain

4 JUL 2026
[SPS]

Lecture series session with Dr. Radha Kodali (Univ. of Tennessee & Le Bonheur Children\'s Hospital, USA) exploring speech signal biomarkers, AI in neurological diagnosis, pediatric epilepsy, and clinical brain data analysis.

09 Techtour

3 JUL 2026
[IEEE-SJCE]

An educational industrial visit to the Centre for Nanoscience and Engineering (CeNSE), IISc Bengaluru. Students explored cutting-edge semiconductor fabrication facilities, advanced molecular laboratories, and networked with leading nanotechnology researchers.

10 Kalpana Chawla Memorial Lecture

15 JUN 2026
[WIE]

A prestigious memorial lecture organized by IEEE WIE exploring the evolution, achievements, and future horizons of the Indian Space Programme and its transformative role in national progress.

11 Motion Planning in Robotics

4 JUN 2026
[SPS & RAS]

Joint technical session by SPS and RAS exploring search-based, sampling-based, and visual motion planning algorithms for mobile robotics and autonomous navigation using ROS 2.

12 Cadence Workshop

28 MAY 2026
[EDS]

An intensive hands-on workshop by the Electron Devices Society delving into industry-standard Cadence EDA tools, schematic entry, layout verification, and physical semiconductor design.

13 ML Workshop

27–29 MAR 2026
[SPS]

A 3-day flagship workshop by the Signal Processing Society covering machine learning fundamentals, modeling in Python, and building local edge-AI inference on ESP32 & MPU6050.

14 TCL Workshop

14 MAR 2026
[WIE]

Conducted by Women in Engineering, focusing on Tool Command Language (TCL) scripting for automating digital design flows, synthesis constraints, and simulation regression suites.

15 Prayas

25 DEC 2025
[WIE]

IEEE WIE's flagship humanitarian outreach initiative, visiting educational institutions to foster curiosity in science and engineering through joyful, hands-on learning sessions.

16 **Soldering and Etching Workshop**

19–21 DEC 2025
[EDS]

A three-day flagship workshop from the Electron Devices Society, giving students hands-on experience of soldering and etching through theoretical and practical sessions.

17 **SPS Wing Inauguration & Tech Talk**

8 DEC 2025
[SPS]

Formal inauguration welcoming the newly introduced Signal Processing Society (SPS) wing to IEEE-SJCE. Chief Guest Dr. Jayasudha BSK (Vice Chairperson, IEEE SPS Bangalore Section & Senior DSP Engineer, Harman) delivered an insightful technical talk on "Deep Dive into Audio Signal Processing" and real-world automotive DSP applications.

18 **Wave Lab**

6 DEC 2025
[SPS]

The debut event of the SPS Wing. Students used MATLAB to explore the basics of signal processing with an industry-standard tool, and received a MATLAB license for future work.

19 **IoT 4.0**

21–23 NOV 2025
[RAS]

The Robotics and Automation Society conducted the IoT 4.0 workshop, giving participants hands-on exposure to building smart, connected systems with embedded platforms.

20 **Snap Circuits**

6–7 NOV 2025
[EDS]

The Electron Devices Society conducted Snap Circuits, giving freshers a hands-on experience of electronic components while building curiosity about circuits and how they work.

21 **Circuitrix**

25 OCT 2025
[IEEE-SJCE]

A hands-on session designed to help students explore, create and simulate both analog and digital circuits using powerful circuit simulation tools.

22 **Electroclues**

13 OCT 2025
[IEEE-SJCE]

Organized under the IEEE Illuminate series for IEEE Day 2025, Electroclues featured "Wire and Win" rapid-fire circuit debugging with a 90-second buzzer round, followed by deductive electronics riddles and technical problem-solving challenges at NPS-001.

23 **Pre-Conference Workshop (AI & Digital Twins - ICETEG 2025)**

9 OCT 2025
[IEEE-SJCE]

Pre-conference workshop for ICETEG 2025 in association with MathWorks and Hub Energy. Explored AI and digital twins in energy systems, battery life prediction, and automated VLSI design with Dr. Puneeth S.B. and Anand Mukhopadhyay at IS Seminar Hall.

24 **Robotics**

26–29 JUN 2025
[RAS · EDS]

The four-day annual flagship robotics event introducing the innovative "Two-Bot Concept

25 **Tech Tour 2025 (ISRO ISTRAC & CeNSE IISc)**

20 JUN 2025
[IEEE-SJCE]

An exclusive technical tour for IEEE-SJCE members visiting ISRO's Telemetry, Tracking and Command Network (ISTRAC) and the Centre for Nano Science and Engineering (CeNSE) at IISc Bangalore, gaining firsthand exposure to mission control and semiconductor cleanrooms.

26 **SQL Bootcamp**

10–11 MAY 2025
[WIE]

The Women in Engineering wing conducted an intensive two-day online SQL Bootcamp on Google Meet. Students explored relational DBMS concepts, mastered queries from basic SELECT filters to multi-table joins and aggregation, and tackled interactive Slido quizzes and mini-projects.

27 **Techkshetra 2025**

3 MAY 2025
[RAS]

State-level inter-college technical project exposition organized by RAS in association with IEEE Mysuru Subsection. Showcased hardware and software innovations across Category I (1st/2nd years) and Category II (3rd/4th years) spanning AI, robotics, IoT, and drones.

28 **AI Expert Talk and Ideathon**

11 FEB 2025
[WIE]

STRONG – Scientific Research for NextGen GirlGeeks was organised by the MCAA India Chapter, funded by the European Union, and supported by the MCAA-Mednight Project, IEEE Mysore Subsection and IEEE-SJCE. The event aimed to inspire young women to pursue careers in science and research.

29 **Soldering and Etching Workshop**

10–12 JAN 2025
[EDS]

The Electron Devices Society conducted the Soldering and Etching Workshop, a three-day flagship event giving students practical exposure to soldering and etching.

30 **Tech Talk: Control and Guidance Systems in Space**

16 DEC 2024
[RAS]

Distinguished lecture by Dr. Ravikumar Lagisetty, Group Director of Mission Simulation Group at URSC (ISRO), exploring satellite orbit mechanics, control and guidance architectures, and Chandrayaan-3 and space docking mission case studies at CMS Seminar Hall.

31 **IoT-3.0 Workshop**

29 NOV – 1 DEC 2024
[RAS]

A three-day workshop covering IoT protocols and core theory before moving on to hands-on simulations with Raspberry Pi and NodeMCU.

32 Snap Circuits

13–14 NOV 2024
[EDS]

Hands-on electronics workshop at NPS-001 Polymer Science Block. Participants explored breadboard fundamentals, transistors as switches, logic gates, 7-segment displays, capacitor charging/discharging, and photoelectric circuits using modular Snap Circuits kits.

33 Fun-Finity

24 OCT 2024
[IEEE-SJCE]

A vibrant freshers welcome social gathering in IS Seminar Hall designed for newcomers to bond with Executive Committee members through icebreakers, team building games, and insights into technical initiatives.

34 SpiceLab

5 OCT 2024
[EDS · RAS · WIE]

A hands-on circuit simulation workshop under the IEEE Illuminate series for IEEE Day 2024. Covered LTspice circuit design, simulation, and analysis across analog rectifiers and digital logic gates and adders in IS Seminar Hall.

35 Quiz Quake

10 AUG 2024
[EDS · RAS · WIE]

A four-round technical and aptitude quiz competition for first- and second-year students organized jointly by EDS, RAS, and WIE. Featured aptitude challenges, riddles, logo identification, and engineering puzzles at NPS-001.

36 TUXEDO

28 NOV – 4 DEC 2023
[IEEE-SJCE]

IEEE-SJCE's odd-semester technical fest brought a week of workshops, contests and events, including Snap Circuits, Web Dev Bootcamp and Scribble.

37 Web Dev Bootcamp

30 NOV & 2–3 DEC 2023
[WIE & RAS]

The WIE and RAS wings presented a hands-on bootcamp on building and designing interactive websites, with online sessions on 30 November and 2 December and an offline session on 3 December.

38 Snap Circuits

28–29 NOV 2023
[EDS]

The EDS wing's TUXEDO'23 event gave students a hands-on introduction to electronic components and circuit building, with no prior electronics knowledge required.

SECTION 2: FEATURED EVENTS IN SOCIETIES SECTION

Society-Wise Featured Events and Descriptions as Displayed in the Societies Section

IEEE-SJCE STUDENT BRANCH

"Advancing technology and professional development."

Featured Events (9)

1. ORIENTATION DAY

The premier annual induction event welcoming new members to IEEE-SJCE. Students meet the Execom, discover technical societies, connect with mentors and seniors, and embark on an enriching engineering journey.

2. TECHTOUR (INDUSTRIAL VISIT)

Educational industrial study visits to ISRO Telemetry, Tracking and Command Network (ISTRAC) and the Centre for Nanoscience and Engineering (CeNSE) at IISc Bengaluru, providing firsthand exposure to satellite mission telemetry, cleanroom semiconductor fabrication, and molecular characterization labs.

3. FUN-FINITY / FUNsane

Signature freshers welcome and social gathering evenings dedicated to breaking away from routine, unwinding, and celebrating community spirit through interactive team challenges, icebreakers, music, and laughter.

4. RADIOVERSE

A two-day immersive technical exploration into radio frequency engineering, wireless telemetry, antenna design, and radar applications with live simulation sessions and demonstrations.

5. TECH DETECTIVE

Celebrated on the occasion of IEEE Day, an exhilarating technical deduction and clue-hunting contest where participants decipher encrypted signals, solve cryptic hardware puzzles, and crack complex engineering mysteries.

6. CIRCUITRIX

Hands-on circuit simulation competition challenging participants to create, analyze, and troubleshoot analog and digital circuits using modern SPICE tools.

7. ELECTROCLUES

An engaging circuit debugging and deduction competition organized under the IEEE Illuminate series for IEEE Day. Features 'Wire and Win' rapid-fire circuit debugging with a 90-second buzzer clock alongside deductive electronics puzzle challenges.

8. PRE-CONFERENCE WORKSHOP (ICETEG)

Hosted as part of the International Conference on Emerging Technologies in Electronics and Green Energy (ICETEG) in association with MathWorks and Hub Energy, exploring AI in energy systems, digital twins, battery life prediction, and automated HDL code generation.

9. TUXEDO

IEEE-SJCE's signature odd-semester technical fest spanning a full week of multidisciplinary workshops, tech competitions, paper presentations, and hackathons.

ELECTRON DEVICES SOCIETY

"Semiconductor devices, circuits & hardware innovation."

Featured Events (6)

1. SNAP CIRCUITS

EDS's annual flagship hands-on electronics workshop conducted across multiple editions (2023, 2024, 2025, 2026). Freshers gain practical experience with breadboard connections, transistors as switches, logic gates, 7-segment displays, and capacitor circuits using Snap Circuits modular kits without requiring prior electronics knowledge.

2. SOLDERING & ETCHING WORKSHOP

Flagship multi-day hardware fabrication workshop moving students from schematics to physical printed circuit boards through 3 structured phases: breadboarding & LED blinking, 555 timer circuits & perfboard soldering, and KiCad PCB design with chemical etching, ironing, and drilling.

3. CADENCE WORKSHOP

Explore analog circuit design and simulation using industry-standard Cadence EDA tools. Practical sessions cover schematic capture, layout verification (DRC/LVS), and IC simulation workflows.

4. ROBOTICS WORKSHOP

Organized in collaboration with the Robotics & Automation Society (RAS), including flagship editions like Robotics'16 with the innovative 'Two-Bot Concept' and Robotics'17, covering microcontroller architectures, sensor integration, and firmware programming to engineer functional autonomous robots.

5. SPICELAB (CIRCUIT SIMULATION)

Hands-on circuit simulation workshop organized in collaboration with RAS and WIE under the IEEE Illuminate series for IEEE Day, utilizing LTspice software to design, test, probe, and simulate analog rectifiers and digital logic gates and adders.

6. QUIZ QUAKE

A four-round technical and aptitude quiz competition organized jointly with RAS and WIE for first- and second-year students, featuring aptitude tests, riddles, logo identification, and engineering puzzles.

WOMEN IN ENGINEERING

"Empowering women in STEM globally."

Featured Events (8)

1. KALPANA CHAWLA MEMORIAL LECTURE

A prestigious flagship memorial lecture organized by IEEE WIE exploring the evolution, achievements, and future horizons of the Indian Space Programme and honoring women leaders in STEM.

2. TCL WORKSHOP: PRINCIPLES & APPLICATIONS

An intensive hands-on session introducing Tool Command Language (TCL) fundamentals, syntax, loops, and file operations for Electronic Design Automation (EDA) scripting.

3. PRAYAS

Signature philanthropic and STEM outreach initiative ('Platform for Rendering Aid to Young Kids and Aiming to Spread Smiles') conducted across multiple school and hostel visits (Visits 4–8), delivering science modules, national flag tricolour awareness, menstrual health seminars, and physics/chemistry demonstrations to underprivileged children across Mysuru.

4. AI EXPERT TALK AND IDEATHON

Organized under STRONG (Scientific Research for NextGen GirlGeeks) in collaboration with the Marie Curie Alumni Association (MCAA) India Chapter, funded by the European Union, and supported by IEEE Mysore Subsection and IEEE-SJCE, inspiring young women in STEM through research talks and an interactive Ideathon with awards.

5. SQL BOOTCAMP

A hands-on two-day online database bootcamp organized by WIE in association with IEEE Bangalore Section & IEEE Mysore Subsection, introducing DBMS fundamentals, complex SQL queries, multi-table joins, Slido quizzes, and mini-projects.

6. SPICELAB (CIRCUIT SIMULATION)

Circuit simulation workshop organized in collaboration with EDS and RAS under the IEEE Illuminate series for IEEE Day, utilizing LTspice to draft, probe, and analyze analog and digital circuit architectures.

7. QUIZ QUAKE

A four-round technical and aptitude quiz competition organized in collaboration with EDS and RAS, testing aptitude, logic, and engineering fundamentals for 1st- and 2nd-year students.

8. WEB DEV BOOTCAMP

Hands-on web development bootcamp organized in collaboration with the Robotics & Automation Society (RAS), covering responsive web architecture, JavaScript, and site deployment.

ROBOTICS & AUTOMATION SOCIETY

"Robotics, automation & intelligent systems."

Featured Events (9)

1. IoT WORKSHOP SERIES

Flagship multi-day workshop series (covering editions like IoT 3.0 and IoT 4.0) giving participants practical exposure to smart connected devices, MicroPython, sensor interfacing, MQTT/cloud protocols, RGB LED server booting, and NodeMCU/Raspberry Pi microcontrollers.

2. TECHKSHETRA

Premier inter-college project exposition organized in collaboration with IEEE Mysuru Subsection and SPS. Features Category I (1st/2nd years) and Category II (3rd/4th years) competitive showcases across AI, robotics, IoT, drones, and integrated hardware-software systems.

3. ROBOTICS WORKSHOP

Conducted in collaboration with the Electron Devices Society (EDS), featuring annual flagships such as Robotics'16 with its unique 'Two-Bot Concept' and Robotics'17, focusing on mechanical fabrication, sensor interfacing, and motion algorithms for autonomous robots.

4. TECH TALK: CONTROL AND GUIDANCE SYSTEMS IN SPACE

A distinguished technical lecture organized by RAS featuring Dr. Ravikumar Lagisetty (Group Director, Mission Simulation Group, URSC, ISRO) exploring satellite orbit maintenance, control and guidance architectures, and Chandrayaan-3 and space docking mission case studies.

5. TECH TALK ON MOTION PLANNING IN ROBOTICS

Joint technical session conducted in collaboration with the Signal Processing Society (SPS), exploring classical search-based, sampling-based, and visual motion planning algorithms using ROS 2, Nav2, and MoveIt for autonomous mobile robots.

6. HANDS-ON MATLAB WORKSHOP: SIGNAL PROCESSING AND CONTROL SYSTEMS

A two-day hands-on workshop organized collaboratively by RAS, SPS, and AESS in association with the ECE Department, conducted by Dr. Riyaz A. Rahiman (CoreEL Technologies), introducing MATLAB, Simulink, and Simscape for control systems and signal workflows.

7. SPICELAB (CIRCUIT SIMULATION)

Hands-on circuit simulation workshop organized in collaboration with EDS and WIE under the IEEE Illuminate series for IEEE Day, utilizing LTspice for circuit analysis across analog and digital systems.

8. QUIZ QUAKE

A four-round technical and aptitude quiz competition organized in collaboration with EDS and WIE, featuring aptitude challenges, riddles, logo identification, and engineering puzzles.

9. WEB DEV BOOTCAMP

Hands-on web development bootcamp organized in collaboration with Women in Engineering (WIE), introducing modern web technologies, responsive UI design, and website deployment.

SIGNAL PROCESSING SOCIETY

"Signals, analysis & real-world models."

Featured Events (7)

1. THE WAVE: SPEECH AS A WINDOW TO THE BRAIN

Distinguished lecture series organized in association with IEEE SPS Bangalore Section, IEEE Bangalore Section, and IEEE Mysore Subsection, featuring Dr. Radha Kodali (Univ. of Tennessee & Le Bonheur Children's Hospital, USA) exploring speech biomarkers and healthcare AI in neuroscience.

2. SPS WING INAUGURATION & AUDIO DSP TECH TALK

Formal wing launch in association with IEEE SPS Bangalore Section, featuring a technical keynote by Dr. Jayasudha BSK (Harman International / Vice Chair, IEEE SPS Bangalore Section) on "Deep Dive into Audio Signal Processing" and automotive audio DSP.

3. ML WORKSHOP

A 3-day flagship workshop covering Machine Learning fundamentals, algorithmic modeling in Python, and building local edge-AI inference systems using ESP32, MPU6050, and motion inputs.

4. MOTION PLANNING IN ROBOTICS

Technical session conducted in collaboration with the Robotics & Automation Society (RAS), exploring path navigation algorithms, visual motion planning, and ROS 2 autonomous robotics.

5. WAVE LAB

The debut hands-on workshop of the SPS Wing utilizing MATLAB to explore fundamental digital signal processing concepts, audio transformations, and practical filter design.

6. HANDS-ON MATLAB WORKSHOP: SIGNAL PROCESSING AND CONTROL SYSTEMS

A two-day hands-on workshop organized collaboratively by SPS, RAS, and AESS in association with the ECE Department, conducted by Dr. Riyaz A. Rahiman (CoreEL Technologies), introducing MATLAB, Simulink, and Simscape for signal processing workflows.

7. TECHKSHETRA

Flagship project exposition organized in collaboration with the Robotics & Automation Society (RAS), where participants showcase working prototypes, signal processing implementations, and technical innovations.

AEROSPACE & ELECTRONIC SYSTEMS SOCIETY

"AEROSPACE, RADAR & AVIONICS SYSTEMS."

Featured Events (2)

1. AESS STUDENT CHAPTER INAUGURATION & TECHNICAL TALK ON SPACE TECHNOLOGY

Formal inauguration of the IEEE AESS student chapter on 23rd July 2026 organized in association with IEEE AESS and ISRO, featuring chief guest Dr. Braham Himed (President, IEEE AESS & AFRL USA) and Sri Puneeth Kumar Mishra (ISRO), with technical sessions on radar and satellite tech.

2. HANDS-ON MATLAB WORKSHOP: SIGNAL PROCESSING AND CONTROL SYSTEMS

A two-day hands-on workshop organized collaboratively by AESS, SPS, and RAS in association with the ECE Department, conducted by Dr. Riyaz A. Rahiman (CoreEL Technologies), introducing system modeling, simulation, and aerospace control systems using MATLAB and Simulink.

COMPUTER SOCIETY

"COMPUTING, ALGORITHMIC SYSTEMS & SOFTWARE INNOVATION."

Featured Events (1)

1. IEEE COMPUTER SOCIETY CHAPTER INAUGURATION

Official chapter launch formally inaugurated alongside the IEEE-SJCE Orientation Day 2026, establishing a dedicated society for computing, algorithmic systems, and software engineering.
